### C- Reading Comprehension

3- Read the following passage, then answer the questions: (10 Marks)

Finland is believed by many to have the best education system in the world, despite the fact that the Finns spend little money on education and have an average of nearly 30 students per class. What makes their schools good? They consider education itself to be the most important goal rather than a way to get a well-paid job. Learning is valued and teachers are respected. In fact, teaching is the number one favourite profession among Finnish teens. In a world where so many people want jobs with status the Finnish example is quite extraordinary.

Teachers in Finland are paid no more than their colleagues in other European countries, but they enjoy great job satisfaction. The main reason for this is the freedom they have to teach the material in any way they wish. Finnish students are pretty happy too. There are no standardised national tests, which means they're not under the same pressure as other European students to get the highest marks they can in all-important end-of-year exams.

1- Give a suitable title to the passage.

2- Why is education successful in Finland?

3- What does the underlined word "status" mean?

4- What does the underlined word "They" refer to?
