3-a- Read the following, then answer the questions:

Science has told us so much about the moon that it is easy to know a lot of things about it. The moon is not a friendly place. As there is no air or water, there can be no life of any kind. For mile after mile there are many big mountains. Above, the sun and stars shine in a black sky. If you move away from the mountain shadows, it will mean moving from very low temperatures into great heat. These temperatures break rocks away from the surface of the mountains. The moon is also a very silent world because sounds can only travel through air. From this distance, the Earth is shining more than the stars. It looks like a big ball, coloured blue, green and brown.
