**Read the following passage, then answer the questions.**

Did you know you can help protect the planet? Don't waste the things you don't want by throwing them away! Local green companies can make those old posters and magazines into recycled paper, and they can transform your old mobile phone into a new one. You and your family can help too. Collect those T. shirts and jeans that are too small for you and give **them** to a charity.

When you drink from plastic bottles, you won't help the planet. It looks harmless, but plastic is a material that is difficult to recycle. And if you eat a snack, make sure it comes in just one bag or box. A lot of modern food products have many packaging and it's a waste! Why not drink fruit juice from a glass bottle and make a sandwich? Glass is easy to recycle and a home made sandwich is better for you and for the environment.

When you go shopping, think before you buy. Remember we don't need to use the world's resources to look cool. If you only buy the things that are really necessary, you'll help save the planet and your money.

Don't have a bath, have a shower. When you have a bath, you use approximately 90 litres of water, but only 30 litres when you have a shower. Water is one of our most important natural resources, and you can help save it. Will our planet survive? Well, if we all help, it will have a better chance. Why don't you start saving the planet at home this evening?
